Project Name: Hands-on teaching model of the heart

Group Number: 24

Group Members: Megan Foran, Danny Jones, Frank Moynihan

Current status of project:

We are investigating different design elements and materials. Additionally, the group is beginning to identify pros and cons of these different ideas.

Work completed in the last week:

- 10/3/12: Team meeting to begin brainstorming design solutions.
 - Divided research responsibilities for the week.
- Worked individually to investigate different elements of the design.
- 10/8/12: Team meeting to further devise out-of-the-box solutions.

Work planned for next week:

- Update website.
- Investigate all possible options for our pending design.
- Brainstorming session on 10/10/12 to identify advantages and disadvantages of current solutions.

Anything needed from client or TA or instructor to continue work:
